Dear Ms «Mothers_sn»,

We are writing to you about a major new and exciting study of infants called *Growing Up in Ireland*. It is the first and most important of its kind ever to take place in this country. You and your baby have been chosen to take part.

The study will improve our understanding of children and their development. It will help us to understand the main issues facing families in Ireland today and it will also help us to advise the Government on key decisions about future policies and services which will benefit all children and their families in Ireland for many years to come.

Growing Up in Ireland will include **10,000 nine-month-old babies and their parents** from all across Ireland. Your name was selected at random from the Child Benefit (Children's Allowance) records kept by the Department of Social and Family Affairs.

The study is being funded by the Department of Health & Children, through the Office of the Minister for Children, in association with the Department of Social & Family Affairs and the Central Statistics Office. The study is being carried out by a group of independent researchers from the Economic & Social Research Institute (ESRI) and Trinity College, Dublin.

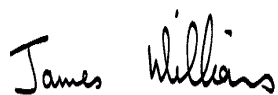

Taking part in *Growing Up in Ireland* is entirely voluntary. All the information collected in the course of the study is treated in the strictest confidence. Your confidentiality is protected by law. No government department will have access to the information collected.

In the coming days a member of our fieldwork team will call to your home to talk to you about the study, explain what your participation involves and to answer any questions you may have. The enclosed information leaflet provides more details on the study.

If you have any queries about the study or your involvement in it, please do not hesitate to contact our Communications Officer (Ms Jillian Heffernan) on 01-896 3378 or any of the *Growing Up in Ireland* team at 01-8632000.

Thanking you in anticipation,

Yours sincerely,

James Williams
(Research Professor, ESRI and
Principal Investigator, *Growing Up in Ireland* study).

INFORMATION FOR PARENTS / GUARDIANS

Your baby has been chosen to take part in a new and historic national study of 10,000 children in Ireland called *Growing Up in Ireland*.

What is the Growing Up in Ireland study?

Growing Up in Ireland is a new, national, Government funded study of children.

The purpose of the study is to improve our understanding of all aspects of children and their development. It will:

- tell us how children develop over time.
- help us to find out what factors affect a child's development.
- look at what makes for a healthy and happy childhood and what might lead to a less happy one.
- help us to discover what it means to be a parent in Ireland today.

What will it tell us?

The study will help us to find out all about children's social, emotional and physical development.

This information will help the Government to make decisions on what future policies and services will be most beneficial for children and their families in Ireland.

What does taking part involve?

Taking part in *Growing Up in Ireland* is very simple.

An interviewer will call to your home to discuss the survey with you and arrange a time, which suits you and your family, to carry out an interview with you and one with your spouse/partner (where relevant). The interviews in your home will last about 110-120 minutes.

If there is another parent living outside the home or someone else, such as a childminder, who looks after the child on a regular basis, we would like to send them a questionnaire in the post. If you prefer, however, we will not send a questionnaire to him/her.

If you don't wish to take part, simply tell the interviewer when he/she calls.

Why should your family take part?

By taking part, your family will play a crucial role in helping us to find out what it's like to be a child growing up in 21st century Ireland. This information will help us to give the Government advice on how to help make childhood a better experience for all children and to make improvements for children and families for many years to come.

Who is running the study?

Growing Up in Ireland is a Government study. The Department of Health & Children is funding it through the Office of the Minister for Children in association with the Department of Social & Family Affairs and the Central Statistics Office.

The Office of the Minister for Children is overseeing and managing the study, which is being carried out by a group of researchers led by the Economic & Social Research Institute (ESRI) and Trinity College Dublin. They are the Study Team.

Confidentiality

All the information given to the *Growing Up in Ireland* interviewer is treated in the strictest confidence. It will be used exclusively for research purposes. The information given by your partner, childminder, and so on will not be seen by anyone – not even you will have access to it.

Growing Up in Ireland is being carried out under the **Statistics Act 1993**. All personnel associated with the study have been appointed Officers of Statistics under the Act by the Director General of the CSO. This means that study personnel are legally obliged to treat all information collected during the study as strictly confidential. This protects all the information you give as part of the study. Your information will be used only for statistical purposes. Under no circumstances could any government department identify information given by you.

We will use an ID number on your questionnaire and this will help to ensure that your information is kept anonymous.

How was your child selected?

Each family has been selected on a random basis from the Child Benefit Register (Children's Allowance records). This will make sure that the study will cover children and families from all parts of the country. We have been able to access the Child Benefit Register under the Statistics Act 1993 which allows Officers of Statistics access to the records of public bodies for statistical purposes only

What kind of questions will your family be asked?

You and your partner (if relevant) will be asked questions about:

- your baby's health and temperament
- his/her daily routines
- your own health
- your family life and experiences as a parent

All the questions are very straightforward, though some are quite detailed and some will address issues like your family's income, your relationship with your partner (if relevant) and so on. The study interviewer will be able to help out if you have any concerns or questions about the actual survey questionnaire itself.

Following up in a few years time:

The unique part of *Growing Up in Ireland* is that it is a long-term study. This means that we would like to return to your home in three years time when your child is three years of age.

When the time comes we will arrange another visit to your home and ask some more questions about how your child has grown and changed over these years.

Who are the Interviewers?

The interviewer who will call to your home is from the Economic & Social Research Institute (ESRI). They are Officers of Statistics appointed by the Central Statistics Office and are similar to those who carry out research on behalf of the Central Statistics Office, including the Census. Each interviewer carries a photo ID card.

Each interviewer has been specially trained for the study and has been subject to security vetting by An Garda Síochána.

The interviewer is not allowed to be alone with your child. You or another adult must be present in the room. This is for the protection of both your child and the interviewer.

If you are unhappy with the way in which the survey has been conducted or with the interviewer or would like to confirm his/her identity, please contact the *Growing Up in Ireland* team at 01- 8632000.

What are your rights if you take part?

- If you decide to take part you and **your family may choose to withdraw from the study at any time, even after the interviewer has called to your home.** At that stage, if requested, we would delete all information previously collected about you.
- If there are any questions on the questionnaire you do not wish to answer you do not have to do so.

Your participation counts.

Taking part in *Growing Up in Ireland* is entirely voluntary. Your participation will play a major role in the success of the study.

It is only by carrying out studies such as these that we can understand the role of all caring adults in the life of a child and find out how we can improve the future for all children and families in Ireland.

We hope that you can support us in our work and we would like to thank you, in anticipation, for your help.

ACCESS TO INFORMATION IN THE NATIONAL PERINATAL REPORTING SYSTEM

The National Perinatal Reporting System (NPRS) records details on all births in the country. The sort of information it records includes:

- time, date of birth, gender, birth weight and gestation period of the child
- nationality, country of origin, occupation and date of birth of the parents
- marital status and date of marriage of the mother
- date of last birth and number of previous births to the mother
- mother's health, ante-natal care and diseases
- mode of delivery, infant's health and feeding
- hospital details such as mother's and infant's admission and discharge dates

This information was recorded by the hospital when your baby was born. *Growing Up in Ireland* would like to be able to access this information for statistical purposes as part of this study. If you agree to allow us to access this information please sign below.

I hereby give permission to the *Growing Up in Ireland* project to access information from the National Perinatal Reporting System (NPRS) for statistical purposes related to the project. I understand that, as with all other details collected in the course of this study, the information accessed from the National Perinatal Reporting System will be treated in the strictest confidence and would not be released in any way which would allow me or my family to be identified.

PERSONAL PUBLIC SERVICE NUMBER (PPSN)

MUM

R1 As you know, we hope to interview you again when your child is 3 years of age. It might assist us in tracing you at that time if we were able to use your Personal Public Service number (PPSN) or that of your child. Your number and your child's number are available from the Child Benefit Register which we used for selecting the sample used for *Growing Up in Ireland*. We have not been provided with these by the Department of Social and Family Affairs. Would you be willing to allow us to have access to (a) your number and (b) your child's number from the Child Benefit Register to assist us in the tracking or tracing of respondents who move between our visits?

(a) Your own number	Yes <input type="checkbox"/> ₁	No <input type="checkbox"/> ₂
(b) Your child's number	Yes <input type="checkbox"/> ₁	No <input type="checkbox"/> ₂

R2. In the future it might be possible to link to databases which would have information which would be of great assistance in the sort of statistical analysis which we carry out as part of this survey. If it were possible to use the PPS number to link to other data sources would you be willing to allow us to do so (a) on your own behalf and (b) on behalf of your child. This would be used only for statistical purposes. No government department or similar body would have access to your personal details.

Would you be willing to allow us to have access to your and your child's PPS number to assist us in linking to other data sources for statistical purposes?

(a) Your own number	Yes <input type="checkbox"/> ₁	No <input type="checkbox"/> ₂
(b) Your child's number	Yes <input type="checkbox"/> ₁	No <input type="checkbox"/> ₂

FOLLOW UP / TRACING INFORMATION

R.1 Thank you very much for your participation in the *Growing Up in Ireland* survey.

As we said at the outset, we will be contacting you again with a view to interviewing you when your child is 3 years old. We will also be sending you updates on our progress from time to time.

Could you give me the name and address (or 'phone number) of two relatives, friends, neighbours or any other persons or organisations who may be able to help us in contacting you, should you move between now and then.

Qualitative Study

R3 As part of the *Growing Up in Ireland* study we will be randomly selecting 120 households for inclusion in what we describe as a qualitative study. This involves a further interview of your family, though in a slightly less structured way to the one which we have just completed. We will be selecting the 120 households for this qualitative sample in about 2-3 months time. Would it be OK if we were to include your family among those to be considered for inclusion in that qualitative study? Please note that there is no guarantee that your family would be selected for the qualitative study.

OK to include family in qualitative study..... ₁

Do not include family in qualitative study..... ₂

Nested Study

R4 Finally, as part of the *Growing up in Ireland* project there may be related studies from time to time on various topics. There are no plans for any such studies at this time. If one of these so-called 'nested studies' arose we would write to relevant households and ask whether or not we could approach them for interview. Would it be OK if we were to include your family among those to be considered for inclusion in one of these nested studies, should they arise?

OK to include family in nested study..... ₁

Do not include family in nested study ₂

ACCESS TO INFORMATION IN THE NATIONAL IMMUNISATION DATABASE

The Health Service Executive (HSE) Immunisation Databases record details on the immunisations which your child has received. These may include the BCG, 5-in-1¹ and Men C injections given at 2, 4 and 6 months and MMR² and Hib given at 13 months.

The sort of information it records includes:

- Child's contact details, date of birth, gender, place of birth, PPS Number
- Immunisations schedule/due dates
- Immunisations given, date given, dose, site of injection, name of vaccinator
- Vaccinations: name, manufacturer, batch number, expiry date
- Adverse reactions – if any
- Client refusals information – if any
- Mother's contact details and PPSN
- Father's details

I hereby give permission to the *Growing Up in Ireland* project to access information from the HSE Immunisation Databases for statistical purposes related to the project. I understand that, as with all other details collected in the course of this study, the information accessed from the National Immunisation Databases will be treated in the strictest confidence and would not be released in any way which would allow me or my family to be identified.

GROUP HHOLD. RESPONDENT

INTERVIEWER NAME _____ INTERVIEWER NO:

Time Section Started (24 hour clock) DATE: __dd__mm__yy

We are seeking to interview the parents/guardians of <baby>. The whole interview with the parents/guardians and child will take about 110-120 minutes to complete [INTERVIEWER: Adjust as appropriate for you in the field]. All the information you and your family provide will be treated in the strictest confidence and will not be released in any way which would allow the information you provide to be identified with you or your family. If however, we are told something which might suggest that a child or other vulnerable person is at risk we may have to act on it.

The Department of Health and Children is funding the study through the Office of the Minister for Children and Youth Affairs (OMC), in association with the Department of Social and Family Affairs and the Central Statistics Office. The Department of Education and Science is represented on the Steering Group which oversees the Study. A group of researchers led by the Economic and Social Research Institute (ESRI) and The Children's Research Centre at Trinity College Dublin is carrying out the study

Appendix I: Non-resident Parent Information Sheet

NON – RESIDENT PARENT’S INFORMATION LEAFLET

What is the Growing Up in Ireland study?

Growing Up in Ireland is a new, national, Government study of children in Ireland. This exciting study is the first and most important of its kind ever to take place in this country.

The purpose of the study is to understand all aspects of children and their development. It will:

- tell us how children develop over time.
- help us to find out what factors affect a child’s development.
- look at what makes for a healthy and happy childhood and what might lead to a less happy childhood.
- help us to discover what children think of their own lives and learn what it means to be a child in Ireland today.

What will it tell us?

The study will help us to find out all about children’s social, emotional and physical development.

The information will help the Government to make decisions on what future policies and services will be most beneficial for children and their families in Ireland.

How did you get my name and contact details?

The main phase of **Growing Up in Ireland** will include 10,000 9-month old children and their families.

Your name and contact details were provided by the other parent/guardian of your child who has agreed to participate in the study.

As part of the study he/she was asked for your contact details as the non-resident parent of your child and he/she agreed to supply it.

Why should I take part?

We would like to ask you for your help in completing a picture of your child’s daily life.

This information will help us to give the Government advice on how to help make childhood a better experience for all children and to make improvements for children as they grow up.

Who is running the study?

Growing Up in Ireland is a Government study. The Department of Health & Children is funding it through the Office of the Minister for Children in association with the Department of Social & Family Affairs and the Central Statistics Office.

The Office of the Minister for Children is overseeing and managing the study, which is being carried out by a group of researchers led by the Economic & Social Research Institute (ESRI) and Trinity College Dublin. They are the Study Team.

NON – RESIDENT PARENT’S INFORMATION LEAFLET

What do I do next?

We would ask you to complete the enclosed questionnaire and return it in the envelope provided.

The questionnaire asks you about your relationship with your child and some questions about your background. It is very straightforward and involves ticking boxes.

Will this information be kept confidential?

All the information that you provide is treated in the strictest confidence and will not be seen by the other parent/guardian or your child. It will be used exclusively for research purposes.

Under no circumstances could anyone in Government or any government agency be able to identify information given by you.

What are my rights if I take part?

- If you decide to take part you may choose to withdraw from the study at any time.
- If there are any question(s) on the questionnaire you do not wish to answer you do not have to do so.

Your participation counts.

Taking part in **Growing Up in Ireland** is voluntary. Your participation will play a major role in the success of the study.

It is only by carrying out studies such as these that we can understand the role of all caring adults in the life of a child and find out how we can improve the future for all children and families in Ireland.

We hope that you can support us in our work and we would like to thank you, in anticipation, for your help.

CARER INFORMATION LEAFLET

What is the Growing Up in Ireland study?

Growing Up in Ireland is a new, national, Government study of children in Ireland. This exciting study is the first and most important of its kind ever to take place in this country.

The purpose of the study is to understand all aspects of children and their development. It will:

- tell us how children develop over time.
- help us to find out what factors affect a child's development.
- look at what makes for a healthy and happy childhood and what might lead to a less happy childhood.
- help us to discover what children think of their own lives and learn what it means to be a child in Ireland today.

What will it tell us?

The study will help us to find out all about children's social, emotional and physical development.

The information will help the Government to make decisions on what future policies and services will be most beneficial for children and their families in Ireland.

How did you get my name and contact details?

Growing Up in Ireland includes 10,000 nine-month olds and their families.

Your name and contact details were provided by the study child's parent/guardian who has agreed to participate in the study.

As part of the study he/she was asked if the study child was cared for by anyone (such as you) for 8 or more hours per week.

Why am I being asked to take part?

As a carer of the study child we feel that you too have a contribution to make.

This information will help us to give the Government advice on how to help make childhood a better experience for all children and to make improvements for children as they grow up.

Who is running the study?

Growing Up in Ireland is a Government study. The Department of Health & Children is funding it through the Office of the Minister for Children in association with the Department of Social & Family Affairs and the Central Statistics Office.

The Office of the Minister for Children is overseeing and managing the study, which is being carried out by a group of researchers led by the Economic & Social Research Institute (ESRI) and Trinity College Dublin. They are the Study Team.

What do I do next?

We would ask you to complete the enclosed questionnaire and return it in the envelope provided.

The questionnaire asks you about your relationship with your child and some questions about your background. It is very straightforward and involves ticking boxes.

Will this information be kept confidential?

All the information that you provide is treated in the strictest confidence and will not be seen by the other parent/guardian or your child. It will be used exclusively for research purposes.

Under no circumstances could anyone in Government or any government agency be able to identify information given by you.

What are my rights if I take part?

- If you decide to take part you may choose to withdraw from the study at any time.
- If there are any question(s) on the questionnaire you do not wish to answer you do not have to do so.

Your participation counts.

Taking part in **Growing Up in Ireland** is voluntary. Your participation will play a major role in the success of the study.

It is only by carrying out studies such as these that we can understand the role of all caring adults in the life of a child and find out how we can improve the future for all children and families in Ireland.

We hope that you can support us in our work and we would like to thank you, in anticipation, for your help.
